

MARINA LÓPEZ

FULL STACK WEB DEVELOPER

ABOUT ME

I am a Full Stack Web Developer with experience in application development and a background in visual arts. My combination of skills allows me to provide an artistic and creative perspective to create original digital experiences.

MY OBJECTIVE

My goal is to contribute to the success of a company by delivering innovative and high-quality solutions, while continuing to develop my technical skills and collaborate in a stimulating and team-working environment. Being able to participate in exciting projects and continue to grow professionally.

WORK EXPERIENCES

FULLSTACK DEVELOPER Freelance

MAYO 2023 - PRESENT

Developing dynamic web applications creating efficient and easy-to-use user interfaces.

FRONTEND DEVELOPER Qali | Lima, Perú

ABRIL 2023 – MAYO 2023

Health company in Peru, during my time in office, I used JavaScript and the React framework initialized with Vite to develop solutions. In addition, I used libraries such as Tailwind CSS, React Prime and Formik, and I used Redux Toolkit for state management. My experience was enriched by the use of agile methodologies such as SCRUM, as well as tools such as GitHub, Figma and Trello

FRONTEND DEVELOPER Henry | Bs As, Argentina. **ABRIL 2023 – MAYO 2023**

Instruct in online programming (Javascript) classes. I managed to develop my communication, interaction and teamwork skills

On the other hand, I also remained attentive to answer any possible questions that might arise in the Slack channel of the students' introductory course about the exercises.

FEATURED PROJECTS

LOTUS-E-COMMERCE DE ARTE

Project carried out in 3 weeks, it is an art gallery made up of works by all types of emerging and established artists, of different styles and in different media.

JavaScript | Next.js | Chakra UI | NodeJS | Supabase | Cloudinary | SCRUM | Github Flow |

APP COUNTRIES - PROYECTO INDIVIDUAL HENRY

This project consists of the development of a SPA (Single Page Application), in which it uses data from the API (restcountries) and then stores it in its own database. (#PostgreSQL). In order to allow the user to have information from all countries available and thus be able to keep a record of the activities carried out in each one. #nodejs #javascript #css #react #databaJavaScript | ReactJS | Express | NodeJS | PostgreSQL | Sequelize | Redux

PORTFOLIO NEXTJS-TAILWIND-FRAMER-MOTION

By combining my development experience with cutting-edge technologies such as Nextjs, Tailwind and the implementation of the Framer Motion library, I managed to create a portfolio project that not only showcases my technical skills, but also provides an authentic insight into my design style and approach. Smooth navigation, aesthetic design, and immersive animations make this project a tangible testament to my dedication.
